

## TESTIMONIALS

I first heard about Kevin Harrison when I was in hospital, following my accident in march 2007. I received a letter from one of his patients with some very helpful advice that I should contact Kevin when I got out of hospital. I followed that advice, and it was the best thing I could have done.

I sustained extremely serious and complicated injuries and while my doctors never doubted I would one day walk again at times to me that prospect seemed very remote, and was more like an impossible dream, Kevin, through his incredible dedication and determination to help me, has made it very possible.

I cannot speak highly enough of Kevin's skills, compassion, sensitivity, professionalism, and willingness to go the extra mile (in my case literally hundreds of miles) to allow me the chance of walking again. The great thing about Kevin is that no matter how difficult the situation or challenge confronting him, he will keep trying, and keep trying, with his seemingly unlimited amount of patience, to find a solution. That he does it all with great humour makes the experience of working with him - no matter how frustrating my own situation is - always a pleasure.

Kevin was present as I walked up the aisle at my wedding to my husband Michael this year, enabling me to fulfil my wish to walk on my father's arm on my wedding day, and I am sure he will be a part of my life for the years to come.

Kevin's provided me with a tremendous customized service beyond the call of duty. Certainly, his work is exceptional and he endeavours to make all fittings to a high standard. But best of all, Kevin is no further than a phone call. I'll never forget the time my charger failed and he was the only one I could reach. He graciously offered to drive over a replacement unit late at night thereby keeping me in an active state. Kevin always puts his patients first and he's a credit to his trade!
